SAILSHADES & ARCHITECTURAL RIGGING

Shadeform are widely regarded as South Australia's premier shading company designing, manufacturing and installing custom made Shade Sails and Structures with over 25 years experience.

***** NEW PRODUCT *****

***** NEW PRODUCT *****

CORRADI PVC RETRACTABLE ROOF

Shadeform have been appointed as the exclusive South Australian distributors for the Italian designed Corradi Waterproof PVC Retractable Roof System.

The system, made to size, has been designed to create an elegant and cosy outdoor space despite the most difficult weather conditions or strongest wind.

ISSEY FLYLOC BLIND

Windows, covered balconies, verandahs and pergolas can provide fresh air, enjoyable views and outdoor spaces for relaxation and entertainment. But the potential of these areas are not often realised as they become unusable when combined with harsh sun, constant breezes and flies and mosquitoes.

Issey Flyloc provides the ultimate in external shading whilst doubling as a barrier against insects. An innovative reinvention of the common fixed flyscreen, this retractable system comes in a large range of designer colours and acts as a windbreak!

Please call Shadeform for a free quote

Fully engineered in various structure types (Aluminium, Timber, Steel or Stainless Steel) the fully motorised system runs on tracks to give the client the ultimate transformable room.

Shadeform are the exclusive South Australian Distributors of:

ROSEWORTHY VETERINARY SCHOOL REGENCY TAFE

The Shadeform team have recently completed installation of a strikingly unique Entrance Canopy for the new Veterinary School. The frames utilise a combination of 86% and 93% Soltis fabric to create multi-textured aesthetic finish.

Shadeform have recently installed twin sails at the Regency TAFE campus. By protecting this previously unused piece of the land the TAFE now has a useful al fresco area for students. The hot dip galvanised posts complete this eye-catching addition to the campus.

NEW GRANDSTAND CANOPY

NEW WEBSITE

Have you visited the NEW Shadeform website yet?

www.shadeformsails.com.au

With downloadable pdf flyers of our entire product range, project photos and an updating news page the Shadeform website is a wealth of knowledge for your new sail structure design.

The Shadeform Team have designed, manufactured and installed this spectacular waterproof grandstand canopy at the Cardijn College oval. The custom designed shelter utilizes the hypar sail design principle with an innovative structural system. Manufactured in a waterproof PVC fabric the canopy provides excellent shade and all-weather coverage as well as creating superb aesthetic appeal to the school oval.

NEW SAIL DESIGN INFO AVAILABLE

Market knowledge of Shade Sail design and construction is generally quite limited in terms of loading, construction and design layout. To enhance this Shadeform have just released a NEW brief document detailing some of the basic concepts in sail design and construction to assist clients in developing their ideas.

The document covers important design considerations such as sail construction, layout, fabric options and an introduction into shading concepts and the travel of the sun.

For a copy feel free to contact our office, or visit our website and click the link Shade Structures/Sails - General Information.

SHADEFORM SHOWROOM

Shadeform invites you to view their comprehensive Showroom display in Flinders Park (address below), including Sail Shades and Fabrics, Issey Automated Blinds and Awnings, Seashell Awning, Flexshade Umbrellas as well as a large range of Stainless Steel fittings and fixings.

PROTECT YOURSELF NOW

On the back of a record heatwave in November forecasters are predicting the heat to continue well into Autumn. Therefore time is of the essence when it comes to providing protection for your family from the harsh UV and heat.

Call Shadeform today to discuss your unique shading requirements with South Australia's premier outdoor shading company.
