

ISSEY FTS

EXTERNAL AND RETRACTABLE FABRIC TENSION SYSTEM

Skylights and large outdoor structures can be beautiful architectural features that create an abundance of natural light. Unfortunately they also allow the sun's heat, glare and harmful UV rays to infiltrate, bringing hot interiors, visual discomfort and faded furnishings.

The Issey Fabric Tension System is a savvy dual-motor system for efficient, contemporary shading of skylights or large outdoor structures. The FTS can cover flat, pitched, or barrel vaulted constructions with its constantly tensioned fabric, which enhances its wind resistance and elegant looks. The FTS gives you the power to control the admission of heat, glare and UV radiation, to enjoy indoor comfort or outdoor lifestyle while effortlessly saving on energy costs.

The system's design strength and versatility is enhanced with Issey's expertise in this system. It requires our experience and technical know-how to tailor the FTS to your specific application, as it provides outstanding results when correctly engineered.

ISSEY FTS VERSATILITY AND EXEMPLARY STYLE IN SUN CONTROL

ISSEY FTS

EXTERNAL AND RETRACTABLE FABRIC TENSION SYSTEM

APPLICATIONS

Skylights and glass roofs can greatly benefit from this retractable fabric system. With the FTS you can feature a pitch, barrel vaulted or flat design for domestic skylights, shopping centres, function rooms and outdoor structures. The system also allows multiple configurations to cover large areas.

- Skylights
- Glass roofs
- Custom built structures

SIZES

HEADBOX

Slimline powdercoated extruded aluminium box unobtrusively protects and prolongs the life of the system.

FTS TRACKS

Powdercoated extruded aluminium 'H' tracks w 30mm x h 50mm

BOTTOM BAR

Powdercoated extruded aluminium round tube 65mm - 85mm depending on width

OPERATION

The ability to retract the blinds gives you the power to control when and how much shade is required:

- **Motorised** - Somfy tubular motors that can be hard wired to a switch or operated via remote control
- **Automatic Sensors** - For enhancement of lifestyle, choose an automatic sun & wind sensor that automatically extends or retracts the systems according to the day's conditions
- **BMS** - Easily integrates with Building Management Systems for convenient and versatile control

FABRIC

A wide choice of fabric is available to suit your unique situation

- **Screen 86% / 90% / 92% / 93%** - When you have a beautiful view, selecting the Sreen fabric will ensure the majority of heat, glare & UV is prevented while the view is maintained
- **Acrylic 99%** - A higher block out factor may be required in a west facing situation or when maximum heat control or privacy is essential

FRAMEWORK

Robust framework and components for durability and longevity:

- **Colour of Frame** - Choice of over 100 colours from the Dulux Powdercoating Range
- **Material** - Powdercoated extruded aluminium framework
- **Nuts, Bolts & Fixings** - Marine grade stainless steel

INSTALLATION METHODS

Each situation is unique and requires different methods of installation. Issey's own installers will create the most suitable method for your application

- **Face Fit**

FTS VARIATIONS

- **Pitched**
- **Barrel Vaulted**
- **Flat**

WARRANTY

Issey confidently gives a 5-year warranty on all of its products. Issey produces Australian designed and manufactured products that are reliable, contemporary and lifestyle enhancing. Our valuable advice is a result of numerous years of experience dealing with a multitude of Australian sun problems. Issey services begin from the design of the product and continue through to the maintenance of each sun shading system, providing professional and accountable service to every customer.

Please contact Issey to discuss your needs further or to arrange a measure and quote.
