

ISSEY SALOME INTERNAL BLINDS

RETRACTABLE ROLLER BLINDS

Windows play an important role as the eyes of every home. They also provide an opportunity for window furnishings to create an inviting ambience, to provide internal privacy, and to be an outlet for a colour statement or design objective.

The Issey Internal roller blinds are designed to be fitted on the inside of a window, with a choice of chic stainless steel manual chain operation or effortless motorised movement. This system can couple 2 or 3 systems together for clever convenience or intelligent cost savings.

The stunning array of fabric choices gives you the opportunity to use your design flair to create striking or classical systems. Issey's expertise is to combine the technical aspect of the system with your personal tastes to give you a seamless system fitting your requirements. Issey's internal range intelligently overcomes the usual limitations of internal blinds, such as gaps or spanning large dimensions, in an open or closed cassette headbox.

ISSEY INTERNALS SOFT, CLASSIC, LAVISH CREATIONS IN HARMONY

ISSEY SALOME INTERNAL BLINDS

RETRACTABLE ROLLER BLINDS

APPLICATIONS

Our contemporary range of internal blinds are designed to give light, glare or privacy control to any window or glass façade. Issey can cope with large span systems and the choice of headboxes and guides allow versatile applications. The Internal Blinds can be coupled together or have multiple headboxes with a single operation.

- Windows
- Doors
- Commercial & Residential Buildings

HEADBOX & SIZES

Slimline powdercoated headbox unobtrusively protects and prolongs the life of the system:

- Box 75mm – up to a width of 3000mm
- Box 100mm – up to a width of 6000mm
- Roller tube size 40, 50, 63, 78 or 85mm

- Variations outside these dimensions are also possible
- Multiple system configurations are available
- Please speak with your local Issey representative for more information

FABRIC

A wide choice of fabric is available to suit your unique situation

- **Fibreglass 5% / 10% openness** - When you have a beautiful view, selecting the Screen fabric will reduce glare & minimise UV while the view is maintained
- **Blockout 100%** - The Blockout fabrics have a 3-layer sandwich that is UV resistant, fire retardant, anti-static, blocking 100% of the light
- **Translucent Fabric** - This fabric provides privacy but filter the light

GUIDE OPTIONS

Choices to suit your preference and window type:

- No Guides
- Powdercoated Extruded Aluminium Tracks w 20mm x d 28mm or Blackout Tracks w 46mm x d 28mm
- Stainless Steel Cables

BOTTOM BAR

- Powdercoated extruded aluminium flat bar h 40mm x d 20, round tube 22mm, Drip bar d 30mm x h 20mm

OPERATION

The ability to retract the blinds gives you the power to control when and how much shade is required:

- **Manual Chain** - available up to 3000mm wide.
- **Motorised** - Somfy tubular motors that can be hard wired to a switch or operated via remote control
- **BMS** - Easily integrates with Building Management Systems for convenient and versatile control
- **Automatic Control** - Fitted with light sensors or timer control, the blinds will retract or extend according to your program

FRAMEWORK

Robust framework and components for durability and longevity

- **Colour of Frame** - A selected range of colours from the Dulux Powdercoating Range
- **Material** - Powdercoated extruded aluminium framework
- **Nuts, Bolts & Fixings** - Marine grade stainless steel

INSTALLATION METHODS

Each situation is unique and requires different methods of installation. Issey's own installers will create the most suitable method for your application.

- **Recess Fit**
- **Face Fit**
- **Ceiling Fit**
