

ISSEY UNICOM

RETRACTABLE DROP ARM AWNING

Low sun angles and higher winds can be issues when considering external shading for your home. Along with finding a solution that will effectively deter heat, glare and damaging UV rays, you want a system that is aesthetically pleasing and enhancing to your home's external design.

The Issey Unicom is an elegant drop arm awning with striking looks ideal for lifting the facade while providing excellent sun protection. Suitable for verandahs, doors and upper floor windows, the system offers heat, glare and UV protection while maintaining the view. The awning's strength in design and robust spring loaded arms stabilise the system against winds, making it a discerning and effective sun solution.

Issey's forte in solving sun problems has led them to create the unique Unicom Drop Arm and Eave Arm variations to successfully accommodate unusual applications.

ISSEY UNICOM STRIKING DESIGN IN SOPHISTICATED SUN SHADING

ISSEY UNICOM

RETRACTABLE DROP ARM AWNING

APPLICATIONS

The Issey Unicom is one of the most robust modern drop arm awnings on the market. It is used to shade balconies, doors and upper floor windows. The spring loaded arm system's projection angle can be freely extended between 0 to 115 degrees. The variation "Eaves Arm" can be fitted to suit protruded eaves.

- Verandahs
- Doors
- Loggias
- Upper floor windows

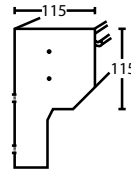

SIZES

Width 770mm – 6000mm

Drop 1500mm – 2050mm (Arm length 800mm -1400mm)

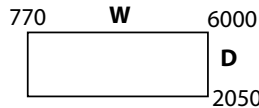

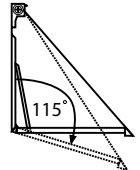

HEADBOX

Slimline powdercoated extruded aluminium box unobtrusively protects and prolongs the life of the system.

UNICOM ARMS

Robust Powdercoated Arms
The spring loaded drop arms allow for a maximum angle of 115 degrees.

ARM LENGTH	DROP
800	1225
1000	1500
1200	1775
1400	2050

FABRIC

A wide choice of fabric is available to suit your unique situation:

- **Screen 86% / 90% / 92% / 93%** - When you have a beautiful view, selecting the Screen fabric will ensure the majority of heat, glare & UV is prevented while the view is maintained
- **Acrylic 99%** - A higher block out factor may be required in a west facing situation or when maximum heat control or privacy is essential

OPERATION

The ability to retract the blinds gives you the power to control when and how much shade is required:

- **Manual Crank** - Removable external crank with handle attached to eye outlet
- **Motorised** - Somfy tubular motors that can be hard wired to a switch or operated via remote control
- **Automatic Sensors** - For enhancement of lifestyle, choose an automatic sun & wind sensor that automatically extends or retracts the systems according to the day's conditions
- **BMS** - Easily integrates with Building Management Systems for convenient and versatile control

FRAMEWORK

Robust framework and components for durability and longevity:

- **Colour of Frame** - Choice of over 100 colours from the Dulux Powdercoating Range
- **Material** - Powdercoated extruded aluminium framework
- **Nuts, Bolts & Fixings** - Marine grade stainless steel

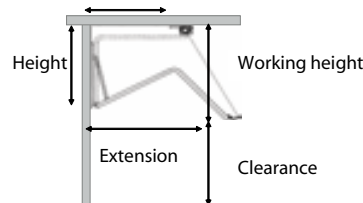

INSTALLATION METHODS

Each situation is unique and requires different methods of installation. Issey's own installers will create the most suitable method for your application:

- **Face Fit**
- **Side Fit**

UNICOM VARIATIONS

- **Unicom Eave Arm** - Ideal for shading areas with eaves

WARRANTY
