

# ISSEY VERTIROLL

EXTERNAL AND RETRACTABLE TENSIONED SCREEN

Covered balconies, verandahs and pergolas can provide appealing outdoor spaces for entertainment and relaxation. But the potential of these areas are not often realised as they become unusable when combined with harsh sun and constant breezes.

The Issey Vertiroll is a tensioned screen which acts as an elegant sun shade, windbreak or internal partition. Protecting these semi-open spaces, the screen shelters the area from direct heat, glare and UV rays as well as wind and rain elements. Fitted with a see-through fabric, it allows view and natural light to filter through while permitting air movement to prevent stagnant heat build up. Unobtrusively designed, the screens accommodate for any architectural style and retract into slimline headboxes.

Issey's strength lies in our creative skills and ability to span the Vertiroll up to 6m wide in a single piece. Well known for its clean looks, it is cleverly designed with various guide options to complement different functions.

**ISSEY VERTIROLL EXCEPTIONAL DESIGN, INTELLIGENT PROTECTION FROM THE ELEMENTS**

# ISSEY VERTIROLL

EXTERNAL AND RETRACTABLE TENSIONED SCREEN

## APPLICATIONS

Covered balconies, verandah and pergolas can be transformed into useable havens by being protected from the elements. The robust system vertically protects large spans while retaining uninterrupted views and light.

- Verandahs
- Pergolas
- Patios
- Semi-open spaces
- Internal retractable partition / divider

## HEADBOX & SIZES

Slimline powder coated extruded aluminium box unobtrusively protects and prolongs the life of the system.

## FABRIC

A wide choice of fabric is available to suit your unique situation:

- **Screen 86% / 90% / 92% / 93%** - When you have a beautiful view, selecting the Screen fabric will ensure the majority of heat, glare & UV is prevented while the view is maintained
- **Acrylic 99%** - A higher block out factor may be required in a west facing situation or when maximum heat control or privacy is essential

## GUIDE OPTIONS

Guide choices to suit your application

- **Wire Cables** - Marine grade stainless steel wires
- **Tracks** - Powder coated extruded aluminium 'H' tracks w 30mm x d 50mm
- **Clip System** - For manual versions only

## BOTTOM BAR

Holds tension on the screen

- **Tube** - Powdercoated extruded aluminium round tube 65mm

## OPERATION

The ability to retract the blinds gives you the power to control when and how much shade is required:

- **Manual Crank** - Removable external crank with handle attached to eye outlet
- **Motorised** - Somfy tubular motors that are hard wired to a special FTS controller
- **Automatic Sensors** - For enhancement of lifestyle, choose an automatic sun & wind sensor that automatically extends or retracts the systems according to the day's conditions
- **BMS** - Easily integrates with Building Management Systems for convenient and versatile control

## FRAMEWORK

Robust framework and components for durability and longevity

- **Colour of Frame** - Choice of over 100 colours from the Dulux Powdercoating Range
- **Material** - Powdercoated extruded aluminium framework
- **Nuts, Bolts & Fixings** - Marine grade stainless steel

## INSTALLATION METHODS

Each situation is unique and requires different methods of installation. Issey's own installers will create the most suitable method for your application

- **Side Fit**
- **Recess Fit**
- **Face Fit**
- **Ceiling Fit**

## WARRANTY

Issey confidently gives a 5-year warranty on all of its products.

Issey produces Australian designed and manufactured products that are reliable, contemporary and lifestyle enhancing. Our valuable advice is a result of numerous years of experience dealing with a multitude of Australian sun problems. Issey services begin from the design of the product and continue through to the maintenance of each sun shading system, providing professional and accountable service to every customer.
