

Client: Cardijn College
Location: The Oval, Cardijn College, South Australia
Project: New Grandstand Canopy
Fabric: Waterproof PVDF Fabric

Scope of Works:

The Client required an eye-catching and functional waterproof canopy structure for the college oval. Shade-form were engaged to design, manufacture and install this stunning structure on behalf of the College.

The custom designed shelter utilizes the hypar sail design principle with an innovative structural system. Manufactured in a waterproof PVC fabric the canopy provides excellent shade and all-weather coverage as well as creating superb aesthetic appeal to the school oval.
