

WATERPROOF ECLIPSE CANOPY

Largs Pier Hotel, Largs Bay

Client: Dean Group of Hotels
Location: Largs Pier Hotel, Largs Bay, South Australia
Project: Waterproof Eclipse Canopy
Fabric: Waterproof PVC

Scope of Works

The Largs Pier Hotel has recently undergone a comprehensive programme of works involving the renovation of the Hotel and improvement to the dining areas. To the front of this historic Hotel is a large alfresco dining area with scenic sea views and endless summer sunsets. This area can only be truly utilised throughout the year if protection can be offered to patrons from wind, rain and solar UV.

Shadeform were engaged to design, manufacture and install this eye-catching and functional waterproof 'Eclipse' canopy structure. The inclusion of blinds to the frame bays provides vertical protection from the elements. The canopy provides full all-weather protection from rain, wind and the sun affording the Hotel a functional and aesthetically pleasing contained environment for patrons.

Why not create more retail or commercial space for your business with one of Shadeform's custom all-weather canopies? Contact the Shadeform team for a consultation and let's get your commercial project rolling!

..the confidence to deliver your commercial project..
