

SEASHELL RETRACTABLE ALL-WEATHER AWNING

Private Residence, Mitcham

Client: Private
Location: Mitcham, South Australia
Project: 128 Degree SeaShell Awning
Fabric: Mehler Waterproof PVC

Project Details:

The owners of this stunning residence in the Mitcham foothills required a contemporary all-weather Shade solution to protect this spectacular entertaining deck. The challenge was to provide all-weather protection for the unusual shaped deck with minimal structure to preserve the fantastic views over the hills. The solution would need to be functional whilst complementing the elegance of the Client's home.

The SeaShell awning provides practical retractable protection from both the sun and rain. The striking design of the canopy can provide a contemporary solution for even the most awkward site conditions.
